## Permission for Student Image Usage in Publications and Media

Dear Parent/Guardian

Oberthur Primary School has recently received clarification of the Department of Education's Information Privacy and Security Policy that requires schools to gain parental/guardian permission before using visual images of students such as photographs outside the school environment.

Oberthur Primary School regularly uses images of students in a variety of ways to recognise excellent achievement, inform parents and the local community of school matters, publicise events and to promote the school. From time to time we may also be asked to contribute to Department of Education materials such as educational videos and the 'School Matters' newspaper.

The school is also developing a new Internet site, which may result in your child's image potentially being accessed worldwide through the Internet. Only their first name would be used and not their family name, nor would any of their personal details be published.

We request your permission to use any images of your child in some or all of the ways listed below. You are of course at liberty to withdraw your consent at any time by contacting the school in writing.

- School Websites/CD-ROMs/Video/Newsletters/Magazine or any medium in relation to school-related activities
- Promotional material for the Department of Education or School
- Articles for West Australian/School Matters/Community Newspapers

Please complete the permission slip below and return to the school by as soon as possible.

Thankyou

Tim Bamber Principal
